

# THE SOLAR SYSTEM

## Physics 2021 – Fall 2023

Instructor: J. R. Sowell

Time: 9:30 to 10:20 MWF                      Howey Lecture Room 3

Office: W102 Physics Building                      (404) 385-1294

Office Hours: **Anytime** but especially MWF 10:20 – 11:00

Email: jim.sowell@physics.gatech.edu

Web Page: <http://www.astronomy.gatech.edu>

Text: *Astronomy Today – Volume 1 (9<sup>th</sup>)*, Chaisson & McMillan  
with **Mastering Astronomy** [Required]

*The Naked-Eye Sky* (3<sup>rd</sup> ed), by Sowell [Recommended]

### COURSE POLICY

Objectives: The objective of this course is for the student to acquire a working knowledge of the Solar System and naked-eye observational phenomena.

Lectures: The lectures will not necessarily cover all of the material on which the student will be tested – the student is responsible for the material indicated by the instructor. Successful completion of this course will require a sustained effort on the student's part to keep up with the material and understand the topics as they are presented. It is expected that the student will read the indicated portion of the text *prior* to the lecture.

**Attendance for all lectures is strongly encouraged. This is a Residential Course.**

Attendance: Each student should be aware of the regulations that are listed in the Student Handbook. The class attendance policy, which the Georgia Tech regulations say shall be at the discretion of the Instructor, will be as follows: There will be no prescribed maximum number of unexcused absences for this class. However, if it is apparent that lack of attendance at class may be impairing a student's performance in the course, the instructor may require that the student not miss more classes, under the penalty of failing the course.

Materials: The student will need a **non-programmable scientific** calculator, with trigonometric functions in particular, for the tests. **Programmable calculators cannot be used for the tests.**

Class Participation: Class participation will be monitored through a series of in-class mini-quizzes. Data will be collected via a Turning Technologies Device [PointSolutions] (PRS) cell phone app. In order to participate, **each student must obtain the cell phone app**. It is the *student's* responsibility to register the device on Canvas, and then to bring it to class each day in operable condition.

<https://account.turningtechnologies.com/account/>

Homework: The homework assignments will be handled electronically, through the internet-based system called **MasteringAstronomy**. This homework system is specifically designed to work hand-in-hand with your textbook. When you purchase the book, you will, at the same time, be purchasing a registration for **MasteringAstronomy**. After purchasing the text, you will need to register with MA in order to activate your account. The **ACCESS CODE/COURSE ID** is

**sowell71822**

**www.masteringastronomy.com**

Assignments will be due at 9:30am, usually before the next regular class meeting, even if there is a test that day. In general, each homework assignment will cover topics from the preceding lecture. This encourages students to confront (and presumably, understand) the material in a given lecture, before attending the next. Assignments submitted after 9:30am will be accepted for an additional ~50 hours past the deadline. During this time period, your maximum possible score will decrease linearly to 0%. Thus, if you complete an assignment by 9:30am the next day, your assignment will be worth a little more than half credit.

Homework will be 10% of the course grade. It is expected that each student's submitted homework be based on an individual understanding of the relevant material. Note that this does not rule out working on homework with other students, but any "collaboration" should involve the sharing of understanding, not answers. (Further guidelines regarding collaborative work can be found in the Honor Code Guidelines.) Copying answers from peers or solution manuals is not only a violation of the Honor Code, but will not provide the level of understanding necessary to succeed on the tests. Keep in mind that 55% of your grade will be based upon your test-taking ability. Do not short-change yourself by cutting corners on homework assignments.

Tests: As indicated on the attached schedule, there will be three 50-minute tests. They will be given on the dates listed and will cover the material presented since the previous test. The lowest two test scores are worth 10% each and the highest score is worth 15%, for 35% of the final grade.

The final exam will include material since the fourth test, but it will also have many comprehensive questions. The final exam grade will be 20% of the final grade. **The total time for the final exam is exactly 2 hours.**

**If you miss a test, contact me by telephone or email as soon as possible so that arrangements can be made to take the test PRIOR to the NEXT LECTURE.** If you know in advance of a conflict, the test can usually be given prior to the scheduled time.

If you miss a test for a valid reason (i.e., you were too ill to take the test, had a serious family illness, etc.), then you must **SUBMIT A WRITTEN STATEMENT** from the Dean of Students or the Student Health Center, with supporting documentation, as to the cause of the absence to the instructor **ON THE FIRST DAY YOU RETURN TO CLASS**. If the reason is acceptable, your grade will be determined at the instructor's discretion. If you do not submit an acceptable excuse for missing a test, you will receive a "0" for that test. If you miss two tests for any reason whatsoever, you must initiate a conference with the instructor. Failure to do so will result in a "0" for the second test regardless of the reason for the absence.

Projects: Sunset positions will be observed and photographed during the semester. A detailed description of the project will be provided on a separate handout. **THE PROJECT IS DUE ON MONDAY, NOVEMBER 20, 2023 at 9:30am.**

Observatory Visit: Georgia Tech has an Observatory on the roof of the Physics Building. There will be several nights when it will be exclusively available for students from this class. Students must visit the Observatory at least once during the semester, but the visit can be ANY night the Observatory is open. Opening of the Observatory is not a guarantee – it is weather dependent. **Do not procrastinate.**

Grading: The total grade consists of (a) GT Observatory visit (5%), (b) in-class quizzes (10%), (c) homework (10%), (d) Sunset Observing Project (20%), (e) 3 one-hour tests (35% total), and (f) the final exam (20%). Also, extra credit (2%) can be obtained by following the instructor's guidelines regarding a visit to the Fernbank Planetarium and Observatory.

Grading Scale: 90 – 100 = A; 80 – 89 = B; 70 – 79 = C; 60 – 69 = D; 0 – 59 = F  
**For those taking the course pass/fail, a C or better is considered passing.**

Extra Credit: Visiting the Fernbank Planetarium and Observatory is not mandatory, but highly encouraged. The Observatory is usually open on Thursday and Friday nights. **Extra credit** can be obtained if (1) You see the planetarium show (1 possible point); (2) You look through the telescope at a celestial object (1 possible point), and (3) You submit a **typed**, one-paragraph summary of (a) the planetarium show and/or (b) the objects viewed with the telescope (i.e., describe their appearance). Scan the Planetarium Ticket receipt, which has been SIGNED by the astronomer working there that night, and include it as an attachment with your Visit Report. **Fernbank Observatory Visit Reports are due no later than 9:30am on the last day of class.**

Unexpected Problems: If a snow and/or ice storm (or any other cause for the Institute to close) occurs on a day scheduled for a test, the test will be given on the first day that the class resumes. Check the instructor's web pages for information.

Academic Integrity: Georgia Tech aims to cultivate a community based on trust, academic integrity, and honor. Students are expected to act according to the highest ethical standards. For information on Georgia Tech's Academic Honor Code, please visit <http://www.catalog.gatech.edu/policies/honor-code/> or <http://www.catalog.gatech.edu/rules/18/>. Any student suspected of cheating or plagiarizing on a quiz, exam, or assignment will be reported to the Office of Student Integrity, who will investigate the incident and identify the appropriate penalty for violations.

**Regulations regarding cheating and general classroom dishonesty will be strictly enforced.**

Accommodations for Students with Disabilities: If you are a student with learning needs that require special accommodation, contact the Office of Disability Services at (404) 894-2563 or <http://disabilityservices.gatech.edu/>, as soon as possible, to make an appointment to discuss your special needs and to obtain an accommodations letter. Please also e-mail me as soon as possible in order to set up a time to discuss your learning needs.

Statement of Intent for Inclusivity: As a member of the Georgia Tech community, I am committed to creating a learning environment in which all of my students feel safe and included. Because we are individuals with varying needs, I am reliant on your feedback to achieve this goal. To that end, I invite you to enter into dialogue with me about the things I can stop, start, and continue doing to make my classroom an environment in which every student feels valued and can engage actively in our learning community.

Student-Faculty Expectations Agreement: At Georgia Tech we believe that it is important to strive for an atmosphere of mutual respect, acknowledgement, and responsibility between faculty members and the student body. See <http://www.catalog.gatech.edu/rules/22/> for an articulation of some basic expectation that you can have of me and that I have of you. In the end, simple respect for knowledge, hard work, and cordial interactions will help build the environment we seek. Therefore, I encourage you to remain committed to the ideals of Georgia Tech while in this class.

## Campus Resources for Students

In your time at Georgia Tech, you may find yourself in need of support. Below you will find some resources to support you both as a student and as a person.

### Academic Support

- Center for Academic Success <http://success.gatech.edu>
  - 1-to-1 tutoring <http://success.gatech.edu/1-1-tutoring>
  - Peer-Led Undergraduate Study (PLUS) <http://success.gatech.edu/tutoring/plus>
  - Academic coaching <http://success.gatech.edu/coaching>
- Residence Life's Learning Assistance Program  
<https://housing.gatech.edu/learning-assistance-program>
  - Drop-in tutoring for many 1000 level courses
- OMED: Educational Services (<http://omed.gatech.edu/programs/academic-support>)
  - Group study sessions and tutoring programs
- Communication Center (<http://www.communicationcenter.gatech.edu>)
  - Individualized help with writing and multimedia projects
- Academic advisors for your major  
<http://advising.gatech.edu/>

### Personal Support

#### Georgia Tech Resources

- The Office of the Dean of Students: <http://studentlife.gatech.edu/content/services>; 404-894-6367; Smithgall Student Services Building 2<sup>nd</sup> floor
  - You also may request assistance at [https://gatech-advocate.symplcity.com/care\\_report/index.php/pid383662?](https://gatech-advocate.symplcity.com/care_report/index.php/pid383662?)
- Counseling Center: <http://counseling.gatech.edu>; 404-894-2575; Smithgall Student Services Building 2<sup>nd</sup> floor
- Students' Temporary Assistance and Resources (STAR):  
<http://studentlife.gatech.edu/content/need-help>
  - Can assist with interview clothing, food, and housing needs.
- Stamps Health Services: <https://health.gatech.edu>; 404-894-1420
  - Primary care, pharmacy, women's health, psychiatry, immunization and allergy, health promotion, and nutrition
- OMED: Educational Services: <http://www.omed.gatech.edu>
- Women's Resource Center: <http://www.womenscenter.gatech.edu>; 404-385-0230
- LGBTQIA Resource Center: <http://lgbtqia.gatech.edu/>; 404-385-2679
- Veteran's Resource Center: <http://veterans.gatech.edu/>; 404-385-2067
- Georgia Tech Police: 404-894-2500
