PUBLIC NIGHTS

Georgia Tech Observatory
THURSDAYS 2023–2024

Telescopes will be moved from The Observatory to the grounds around the Howey Physics Building. Same great celestial views!

September 21	8:00 to 10:00	Moon, Saturn
October 26	7:30 to 9:30	Moon, Saturn
November 16	6:30 to 8:30	Saturn, Jupiter
January 18	6:30 to 8:30	Moon, Jupiter, Orion Nebula
February 15	6:30 to 8:30	Moon, Jupiter, Orion Nebula
March 14	8:00 to 10:00	Moon, Jupiter, Orion Nebula
April 18	8:30 to 10:30	Moon, Orion Nebula

Partial Solar Eclipse – Saturday, October 14

Eye-safe telescopes will be available on the grounds of the Howey Physics Building from 11:30 am to 3:00 pm.

If you park in a campus Visitor Lot, please pay the fee upon arrival.

The Public Night is contingent on clear weather.

Potential closures and driving directions are on the official website:
